PROFESSIONAL SUMMARY

Quality Assurance Automation Engineer and Systems Analyst with over 3+ years of professional experience in QA engineering and a deep understanding of the Software Development Life Cycle (SDLC), specializing in the Banking and Fintech sectors. Proven expertise in ensuring the reliability, security, and performance of mission-critical financial systems, core banking applications, and payment gateways. Expert in designing comprehensive automated testing strategies, building AI-driven QA tools for operational efficiency, and executing rigorous API and E2E testing. Leverages a strong foundation in UI/UX design to drive user-centric quality, ensuring strict data integrity and seamless user experiences across enterprise-scale platforms.

TECHNICAL SKILLS

My technical expertise encompasses advanced QA Automation & Testing (Playwright, Appium, Selenium, Katalon, K6, Postman, Swagger, TestRail, Jira), specialized Fintech Domain Knowledge (T24 Core Banking, Lending Modules, LMS, Xendit/Midtrans Integration, Transaction Security, Financial Reporting), versatile Programming & Frameworks (PHP 8.2+, JavaScript, TypeScript, Laravel, React Native, Next.js, Vue.js), robust Database & DevOps management (MySQL, PostgreSQL, DBeaver, Git, GitHub Actions, GitLab CI/CD), and modern UI/UX & AI Productivity Tools (Figma, Hermes, n8n, Obsidian, Claude, DeepSeek).

WORK EXPERIENCE

Bank Sinarmas — Jakarta, Indonesia

Quality Assurance Engineer | 08/2024 – Present

- Spearhead end-to-end quality assurance initiatives across the SDLC for enterprise operations, specializing in the T24 Core Banking system and comprehensive Lending modules.
- Design, document, and execute advanced automated testing frameworks, including detailed test plans and test cases for critical lending workflows.
- Engineer custom QA tools and integrate AI-driven solutions to optimize testing workflows and maximize operational efficiency.
- Collaborate with cross-functional teams to validate complex financial algorithms and ensure data integrity across T24 integration points.

LAYANA.ID — Yogyakarta, Indonesia

Quality Assurance Engineer & Systems Analyst | 08/2024 – 12/2025

- Orchestrated automated and manual testing for enterprise financial solutions, including a multi-platform Mobile Loan Management System (LMS) using Postman and Appium.
- Executed rigorous security, API, and high-performance testing for platforms integrated with major payment gateways (Xendit, Midtrans).
- Oversaw QA for diverse sectors including healthcare and enterprise aviation, validating complex multi-platform architectures.

HRH Synergy Nusantara Tech — Yogyakarta, Indonesia

Quality Assurance Engineer | 11/2024 – 01/2025

- Spearheaded frontend development and integrated robust quality assurance processes, optimizing UI/UX and system reliability.

Jogjawebcamp — Yogyakarta, Indonesia

Quality Assurance Engineer | 03/2024 – 07/2024

- Authored comprehensive test plans, executed manual and automated testing, and generated detailed API documentation for client projects.

Luncsphere — Remote (Netherlands)

UI/UX Designer | 06/2023 – 08/2023

- Designed a SaaS Web3 website application utilizing blockchain technology, conducting user research and developing interactive prototypes in Figma.

TVRI Nasional — Yogyakarta, Indonesia

UI/UX Designer Intern | 02/2022 – 03/2022

- Developed an efficient Employee Leave Management System using Figma to streamline approval processes.

EDUCATION & CERTIFICATIONS

Bachelor of Information Technology — Muhammadiyah University of Yogyakarta (09/2019 – 07/2023)

- GPA: 3.72/4.00 (Cumlaude).

Certifications: QA Engineering by Digital Skola, API Testing Path by Postman Academy, Certified System Analyst (CSA) by BNSP, Software Development Fundamental by PT. Inixindo Persada.
